Professional Experience

Full Stack Developer
Fatora E-Payment | Damascus

Sep 2024 - Present

- Optimized core financial software products for banks "Fatora-Panel", "Fatora User App", contributing across the stack.
- Implemented new features and improved existing ones to enhance product functionality, reliability, and performance.
- Maintained clean, scalable architecture using .NET Core, Spring Boot, SQL Server, Angular, Flutter.
- Collaborated with cross-functional teams to identify bugs, deliver fixes, and support deployment cycles.

Web Administrator
Career.sy | Damascus

Nov 2023 - May 2024

- Managed and maintained the website's dashboard, ensuring smooth functionality and a positive user experience.
- Posted job vacancies and organized applicant data for recruitment processes using Microsoft Office.

Web Developer
Freelancer | Remote

- Developed a responsive website, focusing on HTML5, CSS3, and JavaScript to enhance user interaction and performance.
- Contributed to interactive elements and responsive designs for improved usability.
- Used version control tools like Git, Github and task management using Jira.

Projects

Zamil
Mobile Developer

May 2025 - Aug 2025

- Built a Flutter mobile app for ITE Damascus University students with features including announcements, grades, attendance, schedules, homework submission, and GPA tracking.
- Implemented collaborative tools such as group management, notifications, flashcards, and exam schedule voting, integrated with backend APIs.
- Integrated a RAG-based AI chatbot and delivered a localized, user-friendly experience aligned with the admin dashboard.

Alessandra Parisi Portfolio
Front-End Developer

Dec 2024 - Mar 2025

- Developed a responsive portfolio website using React.js to showcase Alessandra Parisi's collection of holy icons and religious artwork.
- Ensured cross-device compatibility with a mobile-first design approach and optimized layout responsiveness.
- Deployed the project to production using Aruba.it, handling configuration, file management, and domain setup independently.

AthleticsDXB
Full Stack Developer

Nov 2024 - Feb 2025

- Designed and developed a full-featured athlete management system from the ground up using Flutter for the front end and ASP.NET Core for the back end.
- Built core functionalities including athlete profiles, performance tracking, and administrative tools to streamline athlete data management.
- Deployed and configured the back-end API on a production server, ensuring secure and reliable access to data.

Volunteer Experience
